

Become a Partner of Czech Space Week 2026

The global space sector is entering one of the most dynamic periods in its history. Once the domain of a small number of countries and major space agencies, it has evolved into a rapidly expanding ecosystem of innovative companies, start-ups, research organisations and investors.

Preparations for the historic mission of Czech astronaut Aleš Svoboda to the International Space Station, the growing involvement of Czech companies in international projects and the emergence of new technological opportunities are opening the Czech space sector to the world.

Czech Space Week 2026 will take place against this backdrop. As the Czech Republic's largest national festival dedicated to space, science, innovation and industry, it brings together companies, government institutions, research organisations, investors, students and the general public.

The 2026 edition will place an even stronger emphasis on international cooperation. We aim to welcome leading international companies, institutions and partners seeking new business opportunities, technology partners and suppliers in the Czech Republic. By connecting Czech organisations with their international counterparts, Czech Space Week creates the conditions for new projects, strategic partnerships and long-term collaboration.

A partnership with Czech Space Week offers more than brand visibility. It provides direct access to the people, opportunities and relationships that can support your company's future growth.

In 2025, Czech Space Week welcomed more than 12,000 participants from over 35 countries across 33 events held throughout the Czech Republic. Its flagship event, Space2Business, attracted more than 600 participants and facilitated over 800 B2B meetings. The festival also generated nearly 500 media mentions, while the Czech Space Week newsletter now reaches almost 3,000 subscribers.

Alongside established promotional opportunities, we are developing an enhanced networking programme for our partners. This will include support with establishing business relationships, meetings with international delegations and exclusive opportunities for organisations seeking an active role in the development of the Czech space sector.

Why Become a Czech Space Week 2026 Partner:

- ✓ **Become part of the Czech Republic's largest space event.**
- ✓ **Establish or strengthen relationships with Czech and international companies and institutions.**
- ✓ **Create new business opportunities.**
- ✓ **Present your company to representatives of key government ministries and public institutions.**
- ✓ **Take part in the most ambitious edition of Czech Space Week to date, held as preparations continue for the Czech mission to the ISS.**
- ✓ **Strengthen your visibility among leaders of the Czech space sector, public institutions and the media.**
- ✓ **Gain access to exclusive networking and B2B programmes.**
- ✓ **Experience new event formats reserved for partners.**

„The Czech Space Journey begins on Earth. We are building it together.”

General partner / Strategic partner

INVESTMENT : 20 000 EUR

Partnership Benefits for 2026

- **International Delegation Meeting** – receive active support in developing business relationships with international companies and delegations. Based on your organisation's commercial focus, our team will identify relevant organisations and facilitate targeted introductions.
